

RESPITE CARE

for families in need

Sanctuary Care is a community **respite care** service by Boys' Town. We seek to safeguard the welfare of vulnerable infants and children in Singapore by providing respite care, a form of **protection and safe refuge** within a **family-based environment**. Through our services, we provide a support system to **help struggling parents** and **families facing crises** to care for their infants and children.

WHAT CAN WE DO FOR YOU?

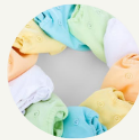

Provide respite care for your child in a family-based environment

Work closely with you & your support network to ensure safety & stability of your child

Help connect you to the appropriate services when needed

Provide ongoing support for parenting & socio-economic issues

Support weekly access between you and your child

**NOT A REPLACEMENT PARENT,
BUT A SUPPORT SYSTEM**
